Factory Colors and Metal Flake – Fiberglass Repair - Insurance Estimate

Hello, my name is Ed Stubbs and I have a passion to bring life back to your pride and joy. Whether it be a bass boat, vintage boat, or canoe restoration give me a call and I'm sure you won't be disappointed in the quality of workmanship or the quote I give you.

I am a factory trained tech on Sea Ray, Bayliner, Boston Whaler, and Grady White Boats and have worked on many bass boat brands. I may be the only certified tech for Poly – Metal Flake in Maine.

I have 40 years' experience repairing gel coat.

If you need clear coat, polyflake, or bottom damage give me a call. Here are a few examples of my work.

Wet Sanding

After Wet Sanding

Ouch Before

Much Better After

Dull and Faded Before

Shine After

Ed's Gelcoat Restoration

Facebook - <https://www.facebook.com/Eds-Gel-coat-Restoration-963848427114285/>

Dull and Faded Before

Much Nicer Shine After

Before and After, See the Difference?

All Buffed Out

Now that's a banged up Bottom

Repaired looks New!
